Note on the data

A. Mandate

1. In its decision 81/34 of 27 June 1981, the Governing Council requested that the Administrator continue to provide data on the magnitude and composition of technical cooperation activities funded by organizations of the United Nations system.

B. Presentation of the data

2. The raw data submitted by United Nations organizations for 2007 were checked for consistency and accuracy prior to processing and presentation. The data contained in tables 1 through 11 are shown at both summary and detailed level. Tables 1 through 8 provide information on technical cooperation expenditures, while tables 9, 10 and 11 reflect contributions. Tables 12 through 15 provide information specifically on UNDP, UNFPA, UNICEF and WFP over the five year period 2003-2007. Tables 16 through 22 report historical data on both contributions received and expenditures incurred since 1982 up to the present time. World Bank and IDA are presented in table 23.

3. Table 1 presents a summary of technical cooperation expenditures by source organizations of the United Nations system. Table 2 presents this data in the context of the ACC (Administrative Committee on Coordination) programme classification categories or sectors. These tables provide information at the aggregate level.

4. Table 3 presents an overview of the technical cooperation expenditures by executing agencies in the United Nations system. For each United Nations organization, expenditures are broken down according to category: Regular budget - (A); United Nations system extra-budgetary sources other than UNDP - (B1); non-United Nations system multilateral sources - (B2); bilateral sources channelled through the United Nations system - (C1); and unilateral "self-supporting" sources - (C2). All expenditures by UNDP, UNICEF, UNFPA and WFP are classified as (B1) expenditures, distributed according to sector. While this may appear to imply that these entities were directly responsible for the implementation of their entire programme, this is not necessarily the case; the aim is simply to preserve tractability and minimize double counting.

5. Tables 4 through 8 provide a detailed analysis of the organization's expenditure categories, regions and recipient countries categorized by sectors in table 3. Specifically, table 4 breaks down regular budget expenditures as described in - (A) above by country and organization. This makes it possible to ascertain the amount of regular budgetary expenditure incurred by a given organization in a given country.

6. Table 5 provides information on the distribution of expenditure of all non-United Nations system multilateral sources (B2), by country and organization.

Normally the total in this table agrees with that of line B2 at the end of table 3 and at the extreme right column of the row. However, there may be instances where there may be a difference due to reporting anomalies in the presentation and/or interpretation of the data provided by the source organization.

7. Table 6 identified by (C1) in table 3 reflects the detailed breakdown by country and organization of bilateral resources channelled to the United Nations executing organizations and specialized agencies. The distribution by country and organization of unilateral expenditure (C2) routed to executing organizations and specialized agencies and back to the contributing countries is shown by the "self-supporting expenditures" column of table 8; the total of this column is in agreement with the amount reflected in the extreme right column of line (C2) of table 3.

8. Table 9 provides data on extra-budgetary contributions to the executing organizations and specialized agencies, organized under the following headings: unilateral and bilateral sources (country or territory and NGOs) and multilateral sources (United Nations system and non-United Nations system). Contributions received by executing organizations and specialized agencies to fund "self-supporting" technical cooperation expenditures are presented in table 10.

9. The remaining tables contain historical data with varying time periods between 1982 and 2007. Contributions to and expenditure by UNDP, UNFPA, UNICEF, and WFP from 2003 to 2007 are provided in tables 11 through 15. Technical cooperation expenditure, nominal amounts and rates of growth by the entire United Nations system for the period 1982 to 2007 are found in tables 16 and 17. Tables 18 and 19 reflect historical data on regular and extra-budgetary expenditure by executing organizations and specialized agencies. Tables 20 and 21 provide historical data and rates of growth of extra-budgetary contributions to executing organizations and specialized agencies. Table 22 reports historical summary data on voluntary contributions received by UNDP, UNFPA, UNICEF and WPF. Table 23 reflects 2007 data relating to World Bank and IDA assistance.

C. Caveats

10. Use of the data in the present document may be guided by the application of the following caveats:

(a) *Scope.* The data on expenditure/contributions refer only to those for technical cooperation. The report defines technical cooperation activities to include the work of UNDP, executing organizations and specialized agencies, UNFPA, UNICEF and WFP.

(b) *Expenditure coverage.* All expenditure data refer to the field programme activities of the entities concerned. All expenditure data are net of administrative, support and other costs. Expenditure data thus refer to the actual amount of resources directly invested in developmental activities, which are classified here and in document DP/2008/40 as field programme expenditure. The only exception is WHO, whose expenditure is inclusive of those other costs.

(c) *The World Bank and the International Development Association.* In 1998 there was a shift in orientation and focus within the World Bank and IDA. These institutions would no longer specifically attempt to capture the technical assistance components of their projects. This decision resulted in the introduction of a new lending instrument: learning and innovations loans (LILs). LILs provide structured support for small, time-sensitive projects. They are often used as companions to structural adjustment loans to address long-term capacity-building issues that are linked to economic policy reform. All data submitted by the World Bank and IDA for 2007 are presented in a separate table (table 23), which is new to this report.

(e) *Contributions – Organizations.* Data on contributions by United Nations organizations refer to extra-budgetary contributions only; regular budgetary contributions are not included in the report. Based on this premise, contribution data on United Nations organizations must not be equated with income.

(f) *Contributions – UNDP and UNFPA.* Data on contributions to UNDP and UNFPA refer to voluntary contributions to regular resources only. In the case of UNDP, cost-sharing, contributions to local office costs, government cash counterpart contributions, funds and trust funds, management services agreements and miscellaneous contributions have been excluded from the total. For both entities, voluntary contributions are not the same as total contributions or total income.

(g) *Contributions – UNICEF.* Contribution data refer to voluntary contributions to regular resources from Governments, the private sector and inter-organizational sources; contributions are not the same as total income.

D. Terminology

11. The utility of the data contained in this addendum can be significantly enhanced through an understanding of the terminology employed. The most important definitions and concepts are given below.

12. *Technical cooperation activities.* These are activities that aim to promote increasing self-reliance and thus strengthen the conditions necessary for sustainable human development. All United Nations organizations reviewed in the present report (with the exception of the World Bank and the IDA, to some extent) are considered to engage in technical cooperation activities.

13. *Regular budget expenditures.* These refer to technical cooperation expenditures of executing organizations and specialized agencies financed from assessed budgets (i.e., contributions). Table 4 in the statistical annex contains detailed data on the regular budget expenditures of United Nations organizations. UNDP, UNICEF, UNFPA and WFP do not have regular budget expenditures because contributions are entirely voluntary.

14. *Extra-budgetary expenditures.* As distinct from regular budget contributions, these refer to expenditures by United Nations organizations financed from voluntary contributions originating from multilateral and bilateral sources.

15. *Multilateral.* Multilateral sources are divided into: (a) United Nations system (B1); and (b) multilateral sources outside the United Nations system (B2).

Total B1 (see table 3) expenditure comprises organization B1 expenditures and rest-of-system B1 expenditures, excluding the World Bank and IDA. Organization B1 expenditures fund technical cooperation activities from resources available within the United Nations system. Considerable efforts have been made to avoid the problem of double-counting – counting a payment and/or a receipt twice. Rest-of-system B1 comprises expenditures from UNDP, UNICEF, UNFPA and WFP.

16. *Bilateral.* Bilateral extra-budgetary expenditures are also grouped into two categories: (a) non-United Nations system sources (C1); and (b) *unilateral self-supporting sources*. The former comprises expenditures incurred against resources provided directly to a United Nations organization by a Member State or an NGO to fund technical cooperation activities in developing countries. The term "unilateral" indicates that such expenditures finance activities within the developing country that made the contribution to the United Nations system. Unilateral expenditures are thus passed from the developing country to the United Nations system and back to the same developing country.

17. *Agency extra-budgetary contributions.* These are used to fund extra-budgetary expenditures. Extra-budgetary contributions are voluntary contributions, which may be tied to a specific purpose or geographic location and which are divided in two broad groups: bilateral and multilateral. Bilateral contributions are broken down into: (a) contributions from countries and territories, representing funds donated to the United Nations system to support activities in developing countries; (b) contributions from NGOs to the United Nations system; and (c) unilateral self-supporting contributions, made by a country to finance technical cooperation activities in that country. Multilateral contributions are subdivided into: (a) contributions from the United Nations system and (b) contributions originating outside the United Nations system, made by multilateral organizations that are not part of the United Nations system. Examples of such organizations are the African Development Bank and the Arab Gulf Programme for United Nations Development Organizations.

#/ This table reflects expenditure funded from bi-lateral sources. It gives a detailed breakdown of total C1 expenditures as gshown in table 3 of this annex. They are specific to the executing and specializad agencies. For 2007 bil-lateral based expenditures totalled $1.6 billion. This was an increase of 18.3% over the 2006 figure of $1.4 billion

b/ In 2007 Several agencies saw major increases in bi-lateral expenditure over 2006 e.g. WHO - 43%; ITC - 40%;

c/ There were also significant decreases in expenditure for 2007 for some agencies: ILO - (15%) and UNESCO - (29%).

a/ UN system technical cooperation expenditure originating from multilateral sources distributed by country or area is presented in this table. Expenditure by category reported on in table 3 of this annex displays this information as "B1". Expenditure growth in this category was 3.6% over that incurred in 2006.

b/ Expenditures do not include overhead paid to executing agencies.

c/ For core expenditure under UNDP, this includes UNSO, UNCDF and UNIFEM. UNOPS, NGO, IMF and NEX in the amount of $383 million.

d/ "Others" column comprises data for which a detailed breakdown is not available or the available data do not warrant a separate column. Total = B1 Agency (Others) + UNDP Administered Funds and amount to $40,294.

e/ UNV, UNFPA, FAO, ICAO, WFP, and WHO reported this amount with no further breakdown.

f/ UNCHS reported significant reduction in expenditure of (54%), UNDP reported a decrease of (4%). UNFPA reported a sharp increase of 22% and WFP reported a 3% rise in expenditure for this category. UNFPA also reported a variance of (35) without explanation.

a/ The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.
b/ WFP reported revised expenditure figures for 1996, 1997, 1998, 1999 and 2000 and 2001.
c/ Although 2003 World Bank data is not representative of technical cooperation per se, it is nevertheless included in this table. For 2007 only amount pertinent to World Bank and IDA lending instruments are captured in this report. Grants equivalent to 192,662 are excluded. See note below.
d/ "Total United Nations system (1)" includes the World Bank and IDA; "Total United Nations system (2)" excludes the World Bank and IDA.

Note: Beginning 1998, the World Bank/IDA does not report technical cooperation expenditure (see "Note on the data" for explanation). This caveat should be borne in mind when using the amounts reported in the column "Total United Nations system (1)" after 1998.

a/ The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.
b/ Please note that the growth of nominal technical cooperation expenditure in 2003 could not be computed for the World Bank and IDA, as no data was submitted for 2001 and 2002.
c/ "Total United Nations system (1)" includes the World Bank and IDA; "Total United Nations system (2)" excludes the World Bank and IDA.
Note: Beginning 1998, the World Bank/IDA does not report technical cooperation expenditure (see "Note on the data" for explanation). This caveat should be borne in mind when using the amounts reported in the column "Total United Nations system (1)" after 1998.
d/ For 2006 computation of percentages for World Bank and IDA percentage is not included due to the lack of same in the prior years.
